

Visit us at www.plasterprofiles.com.au

Our group of companies:

Character is a word usually associated with old world craftsmanship and the attention to detail of a bygone era. In a society geared towards mass productions, expediency and profit above all else, the opportunity to share in this timeless beauty is often lost; but it need not be that way.

At Plaster Profiles, our aim is to show you the ease with which you can create your own individual setting that embraces this character and beauty. As a company we pride ourselves on the quality of our products, superior customer service and integrity.

With one of the most extensive product ranges in Australia, Plaster Profiles is able to cater to all tastes, from the simple clean lines of the modern era, to the incredibly intricate and detailed designs of the Victorian period. In addition to this Plaster Profiles is able to offer a specialized architectural modelling service that can reproduce a complete cornice or moulding

from the smallest sample or create an entirely new and unique design according to your specifications. Our entire product range is hand crafted on the premises to an exacting standard, using time-honoured practices which are both traditional and environmentally responsible.

Plaster Profiles supply to a large range of trade and wholesale customers throughout Victoria, Tasmania and Southern NSW and directly to the Public though our huge showroom located in Bayswater. Alternatively you can visit us online at www.plasterprofiles.com.au to view our extensive range.

We are confident at Plaster Profiles that whatever your project; be it the grandest of Hotel foyers, the largest of shopping centres or the most humble abode. We have the knowledge, experience and the ability to help you create a truly unique setting.

Our entire product range

Custom made mouldings

5

At Plaster Profiles Architectural Mouldings our work practice is all about investment in expertise; we've invested decades in nothing but decorative plaster work so that we can provide a truly expert service, capable of crafting unique designs or finding a variety of ways to bring classics or damaged originals back to life. We work with a diverse range of Architects, Designers and Property Owners from private individuals to commercial businesses providing everything from original designs, to faithful reproductions for a new interior design, to meticulous castings of original moulds.

At Plaster Profiles we own a huge library of moulds which continues to grow (refer to our website for latest additions), including

many antique originals which are ideal for refurbishments and conservation work, or even the most modern of interiors needing that touch of organic decorative feature.

Our bespoke service isn't just for creating contemporary or personalised designs, it can also recreate classics from architecture, photos and drawings or apply expertise to true reproductions; creating a mould from an in-situ moulding reproducing it for the rest of the building or a different building entirely.

All our clients receive a genuine and highly personalised customer care approach from our team; we take our craft seriously, enjoy offering advice and want to understand exactly what you hope for so that we can provide you,

the customer, what you have been promised.

No matter what your requirements for reproductions, renovations, conservation and for that "something new" in plaster mouldings, put it in the hands of the specialists at Plaster Profiles Architectural Mouldings; contact us today to arrange to meet with one of our friendly team or browse through our website www.plasterprofiles.com.au which contains an exclusive range of beautifully designed and crafted cornices, covings, ceiling rosettes and many other plaster moulding products. We look forward to hearing from you.

Ceiling Roses and Panels

A finely moulded ceiling Rosette or Panel will completely transform a plain ceiling into a magnificent feature as will the addition of Strapping, Bosses and Domes. Roses and Panels can be used with or without light fittings; it's only your imagination that limits the use of these products to achieve your required outcome.

Catalogue includes:

- Ceiling Roses
- Sconces
- Ceiling Panels
